

## Collaborative Biography Project

Objective: Research a specific person in order to learn about his/her career, life, and notable achievements. Create an attractive poster that includes a colored illustration of the individual and presents the most crucial information from your research.

# NOT FOR EDUCATIONAL USE

1. The poster is comprised of 6 separate pieces of paper. Evenly distribute the pieces of the poster amongst the members in your group.
2. Look for reputable sources of information and websites from credible organizations. Research the person, specifically using the categories you are assigned. Take notes on your findings, but don't write directly on your poster just yet. Write down your notes on the brainstorming worksheet.
3. Examine and analyze the information you've gathered. Compare notes with your group members and remove any repeated or redundant information. Choose essential information that you will use to fill in the appropriate boxes on your pieces of paper. Proofread, revise, and edit the information you've found. Make sure the information you gathered is written in your own words.
4. Neatly copy your final drafts of information onto your poster. Use dark pen or marker. (You can use pencil to begin with and then trace over the pencil with a darker pen).
5. Collaborate with your group to choose a color scheme for your poster. Each group member should color an equal number of pages. You can use crayons, colored pencils, markers, glitter, and other crafting materials. The poster must be entirely colored.
6. Complete the project! Carefully cut along the dotted lines to retrieve the final 6 pieces of poster paper. Tape the 6 pieces of paper in their proper places, so that the illustration lines up correctly.

## FAMOUS FOR

Sally Ride is best known for being the first American woman to travel to space.

## SUCCESSES

Sally Ride's most famous achievement was becoming the first American woman to fly in space. She reached this milestone on June 18, 1983, as a crew member on the Space Shuttle Challenger for the STS-7 mission. Her participation in this mission broke gender barriers and opened the door for many more women in the field of aerospace.

## FAILURES

Ride faced a profound professional and emotional challenge when she served on the investigative boards for two Space Shuttle disasters, in which a total of 14 of her comrades were lost: the Challenger in 1986 and Columbia in 2003. These roles involved examining the causes and systemic failures that led to the tragic losses of the shuttles and their crews.

## EXPERIENCE

Ride returned to space on October 5, 1984, on the Space Shuttle Challenger's STS-41-G mission. This mission was notable for its crew of seven, which included two women, marking another milestone in the inclusion of women in space missions.

After her career at NASA, Ride co-founded Sally Ride Science in 2001, an organization dedicated to promoting science education for young students, especially girls. This initiative reflected her passion for education and her commitment to inspiring the next generation of scientists.

## HURDLES

As the first American woman in space, Ride encountered significant gender discrimination. The media often focused on her gender rather than her qualifications and achievements, asking questions about her emotional stability, her capability to handle stress, and how space travel might affect her family plans.

## BIRTH

Sally Ride was born on May 26, 1951, in Encino, California.

## QUOTE

"The stars don't look bigger, but they do look brighter."

## CAREER

Sally Ride began her career by pursuing a dual undergraduate degree in physics and English at Stanford University, followed by a master's degree and a PhD in physics from the same institution. Her career took a significant turn when she was selected by NASA in 1978, after responding to an advertisement seeking astronaut candidates. This marked the beginning of her journey as an astronaut, during which she became the first American woman in space.

## INSPIRATION

Sally Ride was inspired by her teacher, Dr. Elizabeth Mommaerts, who nurtured her interest in science.

## PERSONALITY

Pioneering  
Resilient  
Inspirational

## IDEALS

Sally Ride strongly valued equality, education, and exploration. She championed gender equality, striving to eliminate biases against women in STEM fields. Ride was also a passionate advocate for accessible, high-quality science education to inspire and educate the next generation. Additionally, she believed in the importance of space exploration for advancing scientific knowledge and human progress, embodying these principles throughout her career and legacy.

## AGE / DEATH DATE

Ride died on July 23, 2012, at the age of 61 following a 17-month battle with pancreatic cancer in San Diego, California.
