“Stopping by Woods on a Snowy Evening” by Robert Frost Teacher Instructions

Thank you for your purchase! Your students are going to love deciphering and solving puzzles in this educational, 360° digital escape room. This activity is designed to work for a laptop, tablet, or smart phone. Students will solve a series of clues based on the poem “Stopping by Woods on a Snowy Evening” by Robert Frost. They do not need to read the poem prior to completing this activity. Please do not share this link with other educators as it is my copyrighted work and against my terms of licensing. You can purchase additional licenses in my [TpT store](#).

Have your students work independently or in teams; it's up to you! Included in this zip folder are teacher instructions, student instructions, the master lock graphic organizer, answer keys, a copy of the poem, and a reflection sheet. While using this resource, you must have a wi-fi connection and the ability to access the following sites: [kuula.co](#) and Google Forms (your students do not need a Google account).

Poetry Escape Room

The room is a 360 degree panoramic photo, so the clues are all about the room. You must click your mousepad and hold down the cursor to scan the entire room. Drag the arrow in whichever way you'd like to go. If you are using a smart phone, simply swipe your finger. **No password is required to gain access to the room.** If this happens to you, your district's firewall is blocking the program and you should contact your IT department.

1. Share directions with your students digitally (it includes the link to the escape room).
2. Verbally review the rules with your students.
3. Set a timer for 45 minutes using a classroom timer or use an online [free countdown timer](#); make sure students are aware that they are being timed. Timing students is completely optional!
4. Pass out the “Master Lock” graphic organizers to students. You may also choose to pass out a copy of the poem to students as well.
5. Upon entering the room, have your students start by clicking the START HERE button. This is where they will read the full poem for the first time.
6. Next, students should start solving clues. The clues are labeled by numbers. For every clue students figure out, they must record their answers on their master lock graphic organizer (on paper). The master lock (a google form) requires six correct answers from all six clues and is mandatory for students to “escape.” They can find the Master Lock located near the horse’s saddle. Click the lock and a link will appear.
7. Once the time is up, you can have students fill out a reflection sheet (optional).
