

The Monkey's Paw

Digital Escape Room Teacher Instructions

Thank you for your purchase! Your students are going to love deciphering and solving puzzles in this picturesque, 360° digital escape room based on "The Monkey's Paw." Please do not share this link with other educators as it is my copyrighted work and against my terms of licensing. You can purchase additional licenses in my [TpT store](#).

Have your students work independently or in teams, it's up to you! Included in this download are teacher instructions, student instructions, the master lock graphic organizer, answer keys, and a reflection sheet. Additionally, printable worksheets are available for clues #2 and #5 if your students prefer to complete them on paper. While using this resource, you must have a wi-fi connection and the ability to access the following sites: Youtube.com, Kuula.co, JigsawPlanet.com, and Google forms.

The Monkey's Paw Escape Room Link:

1. Share directions with your students digitally (includes the link to the escape room).
2. Verbally review the rules with your students. Students should have a copy of the story close-by and easily accessible as they will need textual evidence to solve some of the clues.
3. Set a timer for 45 minutes using a classroom timer or use an online [free countdown timer](#); make sure students are aware that they are being timed.
4. Once students enter the room, ensure they click the "Start Here" button first to discover how they are part of the story! Then, they can start deciphering clues.
5. For every clue students figure out, they must record their answers on their master lock graphic organizer. The master lock (a google form) requires six correct answers from all six clues and is mandatory for students to "escape."
6. If your students struggle at all, feel free to give them hints!
7. Once the time is up, you can then have students fill out a reflection sheet (optional).
