

To Kill a Mockingbird Digital Escape Room

Teacher Instructions

Thank you for your purchase! Your students are going to love solving puzzles in this 360° digital escape room. This activity is designed to work for a laptop, tablet, or smart phone. Students will solve a series of clues based on the novel *To Kill a Mockingbird* by Harper Lee. Please do not share this link with other educators as it is my copyrighted work and against my terms of licensing. You can purchase additional licenses in my [TpT store](#).

Have your students work independently or in teams! Included in this zip folder are: teacher instructions (with answer keys), student instructions, the master lock graphic organizer, reflection sheet, and printable copies of Clues 1-6 (some students might find it easier to complete the puzzles on paper). While using this resource, you must have a wi-fi connection and the ability to access the following sites: kuula.co and Google Forms (your students do not need a Google account).

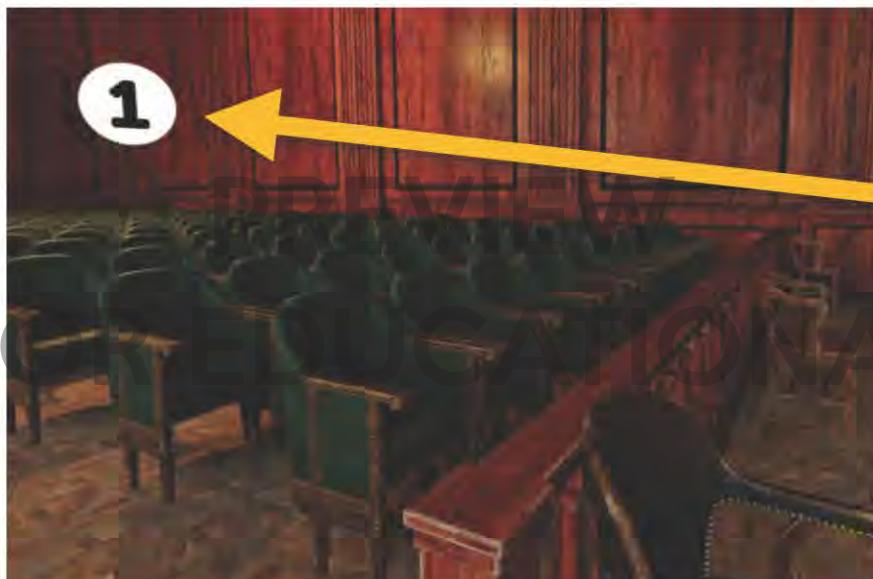

The room is a 360 degree panoramic photo, so the clues are all around the digital room. You must click your mouse and hold down the cursor to scan the entire room. Drag the arrow in whichever way you'd like to go. If you are using a smart phone, simply swipe your finger.

No password is required to gain access to the room. If this happens to you, it means your district's firewall is blocking the program and you should contact your IT department.

Suggested Lesson Procedure:

1. Share the directions (PDF) with your students digitally so they may access the link to the escape room. Verbally review your expectations with your students. Put students in groups of 2-3.
2. Set a timer for 40-45 minutes using a classroom timer.
3. Upon entering the room, have your students start by clicking the "1" button (shown below). This is the first clue. Then students will move on to Clue 2, and so on and so forth.
4. The 6 clues are labeled by numbers. For every clue students figure out, they must record their answers on their Master Lock graphic organizer (on paper). The master lock (a google form) requires 6 correct answers from all 6 clues and is mandatory for students to "escape." They can find the link to the Master Lock located on the door when they are ready to escape.
5. Once time is up, ask students to fill out a reflection sheet to get their feedback (optional). If you find that most of your students did not finish, you can extend the activity and allow them to continue the next day.
